

Land Between the Lakes Recreation Area Eclipse and Fire Prevention Team

August 14

Yesterday morning the team continued long term fire prevention planning for the Land Between the Lakes. The afternoon was spent distributing materials to surrounding communities, including Dover, Cadiz, Canton, Murray, Grand Rivers, Calvert City, and Paduca. Contact was made with the National Parks Service at Fort Donelson National Battlefield, who expressed a desire to collaborate with outreach efforts and establish a cohesive fire prevention message throughout the surrounding area. We will work throughout this assignment to further this partnership with them.

The team PIO staff participated in a short interview with WPSD yesterday at Hillman Ferry Campground, which aired during last night's 5 o'clock news spot. Additional interviews with WPSD and local radio stations are scheduled for tomorrow.

Today we will continue making contacts in the surrounding communities of Benton, Aurora, and Clarks River National Wildlife Refuge, as well as pursue additional contact opportunities with local media.
