

Dozer Boss, S-232  
Pre-Course Work Answer Key  
Part 2

The following questions refer to tasks in the Single Resource Boss, Dozer taskbook.

1. Why is identifying dozer capability important to a dozer boss?
  - **By being able to identify the capability of a dozer, the dozer boss will identify the correct dozer for the job.**
  
2. If a dozer boss is not comfortable performing inspections, what can be done to ensure the dozer gets a good inspection?
  - **Ask ground support personnel to assist.**
  - **Ask other dozer bosses to assist.**
  
3. Where can a dozer boss get information about how to flag fireline?
  - **Check IAP**
  - **Ask STDZ, DIVS**
  
4. What are three sources that a dozer boss can use to get information about identifying hazards?
  1. **Dozer Boss pre-course work**
  2. **214A or IAP safety message**
  3. **Local personnel**

5. List three environmental concerns dozers may cause and measures a dozer boss could use to reduce them.

**Concerns:**

- **Going through wilderness areas and scarring the landscape**
- **Digging through an historical/archeological site**
- **Crossing a stream that contains endangered species**
- **Riparian areas**

**Solutions:**

- **Flag and avoid.**
- **Check with the resource advisor, dozer boss' supervisor, and local personnel who may be familiar with the area.**
