

S-490, Advanced Wildland Fire Behavior Calculations (Applies to 2010 Version)

Optional materials have been developed to enhance the students understanding of the Wildland Fire Decision Support System (WFDSS) relative to the Advanced Wildland Fire Behavior Calculations course. Instructors who choose to use the optional materials to enhance the course should be familiar with the lesson and its contents and determine how it will be used in the course. The materials are available on the S-490 pre-course work page. <http://training.nwccg.gov/pre-courses/s490/s490.html>
