

S-359, Medical Unit Leader (Applies to the 2000 Version)

Instructors should reference the Incident Emergency Medical Subcommittee (IEMS) website (<http://www.nwccg.gov/branches/pre/rmc/iems/index.html>) when discussing medical protocols on page 2.5 of Unit 2, Establishing and Maintaining the Unit. Click on the Minimum Standards button for current information on medical protocols for incidents.

The site also contains a variety of additional information and resources designed for EMS personnel who will organize and manage an incident medical unit. Instructors should make students aware of this website.
